

“How do I give my customers
the wash format they prefer?”

With the industry-leading
combination soft-touch/
touch-free rollover system.

ChoiceWash XT

Advantages for you and your customers.

- Offers customers a choice of soft-touch, touchless, or combination wash programs
- Provides best-in-class cleaning results regardless of the chosen format
- Up-sells customers with a wide variety of value-added services

“How can I earn even more profit from my carwash business?”

4DIMENSIONS for a successful carwash business.

Mark VII is the industry's first carwash manufacturer to provide a single rollover platform that sets the standard for both soft-touch and touchless washing.

Like no other system, ChoiceWash XT meets your customers' demanding requirements for wash quality, speed, ease of use and design — what we call the 4DIMENSIONS of a modern carwash.

ChoiceWash XT delivers an incredible customer experience combined with the business results you require. No other rollover on the market provides the flexibility to address customers' individual preferences for how they want to clean their cars.

With [4DIMENSIONS](#), discover how ChoiceWash XT ensures maximum customer satisfaction and profits for you.

Innovations to separate you from your competition.

3-Brush Soft-Touch Technology

Our patented SofTecs foam gently and safely cleans and polishes vehicles while minimizing the electricity, water, and chemicals consumed when customers choose a soft-touch wash.

Turbo Touch-Free Technology

A contour-following top boom, high pressure pumping plant and 28 zero degree turbo nozzles deliver best-in-class cleaning results to customers choosing a touchless wash program.

Combination Washing

Combine turbo high pressure pre-wash and rinsing with SofTecs foam brushing on your top wash to give your customers the best possible wash and generate more profit for you.

Self-Adjusting Side Washers Clean Better

Side washers angle out on the first pass and in on the second pass, ensuring that curved surfaces at the top and bottom are thoroughly scrubbed.

Contouring Spray Arms for Greater Efficiency

Contour-following spray arms stay close to the car, achieving excellent coverage while consuming less water and chemicals.

Technology to clean better and lower operating costs.

WheelJet

Our premium wheel cleaning system is angled for better centering, has larger brushes for better coverage, and integrates high pressure for added cleaning power. Our basic HubScrub system is also available.

Triple-Foam

Customers love the colorful display and scent and are willing to pay more for wash packages that include them.

Choice of On-Board or Freestanding Dryers

AquaDri dryers are designed to thoroughly shed water from the vehicle after washing. Available in several configurations to match your needs.

Premium Wax System

The premium wax system enables the use of chemicals such as Rain-X to provide extended protection of all vehicle surfaces while driving incremental revenue for the carwash operator.

Hand Wax Quality Shine in a Fraction of the Time

ShineTecs and ShineTecs Tri-Foam contain shine polymers that instantly clarify the paint and are buffed in to generate a deep gloss shine and generate more revenue for the operator.

Make your carwash unique.

FoamTecs:

A foam wash with a wow effect.

FoamTecs applies any foaming chemical to the vehicle in a voluminous curtain of foam. Programmable LED lighting turns the application into a spectacular customer experience, providing another way to up-sell customers to your premium wash package.

LightDoors:

Light the way for your customers.

LightDoors use an array of 20 LED light bars to attract customers to the carwash, guide them into the bay, display a dramatic show during the wash program, and provide another visual cue when the wash is over and it's time to exit.

Classic Doors

The original ABS plastic doors are available with your choice of blue, red or custom accent panels (at additional charge).

Stainless Steel Doors

For customers who prefer the shiny look of stainless steel. They can be easily customized with your branding by having them "wrapped" by your local sign company.

Remote carwash management: Mark VII Plus.

Check the status of your bays and sites at a glance on the Mark VII Plus dashboard using any computer or mobile device. Drill down to see details about wash counts, revenue, machine status, etc., and receive instant alerts when issues arise.

Specifications
